

UK agent and counsellor training

Code of conduct acceptance

The National Code of Ethical Practice for UK Education Agents (referred to as 'the National Code') sets out the standards and best practice that education agents and aggregator agents, representing UK education providers are expected to adhere to. Born out of the London Statement (2012) and the British Council Good Practice Guide for Education Agents (2013), it is endorsed by many of the UK's peak bodies and promotional. Education Agents have contributed to The National Code's development and UK providers have committed to imbedding The National Code into their education agent contracts and quality management practices. It is not in of itself a legal document.

This document is a record of your acceptance of the National Code. It is valid for two years from the date shown. This is not your certification award.
